PLIGHT OF EUROPE'S CHILDREN STAGGERS

3,500,000 Facing Starvation Can Only Be Saved by America's Response to Joint Appeal.

It is utterly impossible for one who has not actually seen the misery of the early Autumn in Europe to visu-alize what the children of the Eastern and Central portions of the continent face this winter. To say that 3,500,000 children have no alternative to starva-tion or death from disease except American aid, is startling, but independ-ent observers by the score and care-ful scientific surveys of the economic and crop conditions overseas brand the figure as conservative.

In Poland, for instance, where 1,300,000 youngsters last year subsisted al-most entirely on the one free Ameri-can meal a day that they received, con-ditions as winter closes down, are worse than ever before. The Belsh-avik invasion stripped large portions of the country of all grain. Professor E. D. Durand, Food Advisor to the Polish government, after an exhaustive survey, has reported that only forty per cent is available of the food neces-sary to carry the population through the winter.

In the city of Vienna tests conducted in the American Relief Administration food kitchens showed that 52 per cent of the children between the ages of 6 and 14 were "seriously under-nourish-ed." Thirty-three per cent were mark-edly under-nourished, 11 per cent were slightly subnormal and only 4 per cent approached the state of a normal American child. The American Relief Administration is feeding 300,000 Austrian children every day now, and there is no chance of diminution of need before next harvest.

The spectacle of the medical needs of Europe's children is equally ap-palling. Estimates reaching the Ameri-can Red Cross—its needs for medical service in the destitute areas this win-ter include: Old Austria-Hungary, 750,000; new Poland, 1,500,000; Cascho-Slovakia, 200,000; Serbia, 150,000, and Roumania, 100,000. In the fiscal year of 1919-20 the Red Cross has reached with the veritable gift of life 1,500,000 children in the affected areas. Tubercu-losis is prevalent to a terrific degree. Five children out of seven in the city of Warsaw, for instance, have been found to be tubercular. Typhus is widespread; rickets, the right-hand of under-nourishment is almost universal, and cholera lifts its grim head cas-tantly in one place and another.

The European Relief Com-mittee, comprising the American Relief Ad-ministration, the American Red Cross, the American Friends Service Committee (Quakers), the Jewish Joint Distribu-tion Committee, the Federal Council of the Churches of Christ in Ameri-ca, the Knights of Columbus, the Y. M. C. A. and the Y. W. C. A., seeks \$25,000,000 with which to meet the situa-tion. It has estimated that at least \$25,000,000 must be had for food and \$25,000,000 for medical service to avert absolute disaster among the threat-ened children. Checks may be sent to your local committee or to Franklin K. Lane, treasurer European Relief Council, 42 Broadway, New York, or to the Child Feeding Fund, Literary Digest, New York City.

Such primary or prima facie as-sessment roll showing the primary or prima facie assessments, together with the names of owners and descriptions of property subject to be assessed, is on file and can be seen at the office of the Board of Public Works.

By order of the Board of Public Works. H. K. GROVES, E. W. WICKLEY, OTTO C. F. SEEHASE, Board of Public Works. Attest: T. Y. RICHARDS, City Clerk. 12:12:13
